I screwed up and ordered two doors of the wrong size for my house. I can't return them to Lowe's because I already painted the interior side white, (shown in pics). I'm looking to get what I can for them, (and get them out of my garage, where I don't have to see them and feel sick about my stupid mistake anymore).

Both doors are 36" x 80," steel, double bore, and feature build-in shades/blinds. One is right-hand inswing, the other is left-hand inswing. Other than the white paint on the interior side, (shown in pics), they're brand-new and unused.

The price on these doors at Lowe's is right about \$400 once sales tax is paid. I'm asking \$250 each, or will sell both for \$450. (That's two for just over the price of one at retail). Cash only please; buyer must pick up. Location is just a few minutes off of I-20 near Hudson Oaks
